

A short Commentary

I Very Welcome the Patriotic and Exemplary Stand of the Eritrean People's Democratic Party (EPDP)

Drs. Tsegezab Gebregergis, London, April the 4th, 2015

It is to be recalled that, on March 28th, 2015, I posted a brief comment on my Facebook page bearing the title "**Only Eritrean Patriots will Decide the Fate of Eritrea**". In it, I have confidently stated that "none of the Ethiopian air force jets have ever entered the Eritrean airspace and much less have incurred damages to the Eritrean Gold Mine". I also stated that "if the empty claims by the Woyane collaborationist unpatriotic Eritreans was to be true, the next day Ethiopia's Grand Renaissance Dam would have been legitimately targeted and bombed by the Eritrean air force".

Consequently, in concluding my remarks, I stated that "It is important to know and understand if the Woyane gangs are stupid enough to underestimate the patience of the heroic Eritrean people and their defence forces and continue to violate Eritrean sovereignty and national honour, they are playing with real inextinguishable fire for which only they will be solely responsible".

In any case, it is now confirmed that the misleading and malicious rumours which was disseminated by the TPLF gangs that Ethiopian Jet fighters bombarded economic and military targets deep inside sovereign Eritrean territory and safely returned to their base, is a blatant lie. Indeed, to their credit, the patriotic political leadership of the Eritrean People's Democratic Party (EPDP) has boldly reported on its official website [Harnnet.Org] that it has reliable information from dependable sources in the Eritrean capital, Asmara, that the Bisha mining company and other military targets in Eritrea were hit by TPLF missiles fired from Tigray, Ethiopia on March 20, 2015. In other words, as I stated in my above mentioned posting, none of the TPLF air force fighter jets ever entered the Eritrean airspace as the TPLF gangs and the discredited Eritrean opposition groups ridiculously claimed.

What is more, unlike the capitulationist and collaborationist TPLF puppet Eritrean organisations based in Ethiopia -that are unashamedly praising the flagrant and cowardly TPLF aggression and violation the sanctity and territorial integrity of sovereign Eritrea and the bombing of the country's economic lifelines - the EPDP reflecting the true radiant Eritrean nationalism and patriotism, has condemned the TPLF led government of Ethiopia's military action **"as an unwarranted act of aggression"**. The EPDP political leadership has also severely criticised [and rightly so] the authoritarian PFDJ regime running independent Eritrea **for its utter failure to defend the national honour and sovereignty of Eritrea and to immediately tell the Eritrean people the truth surrounding the cowardly bombing of Eritrean sovereign territories by the TPLF political cannibals.**

I thus wholeheartedly welcome the timely, patriotic, bold and exemplary political stand of the EPDP and call upon all patriotic Eritreans to salute the courageous political decision of the EPDP to come out openly and condemn the treacherous and unprovoked TPLF gang's aggression against Eritrea.

Forward with the EPDP!!
