

A Message of Condolence

From GI – Global Initiative to Empower Eritrean Grassroots Movement

It is with a heavy heart and a deep sense of great loss that we learned about the untimely passing

of Brother Berhane Woldegabriel. Ato Berhane was one of the founders of the *Global Initiative to Empower Eritrean Grassroots Movement*. Ato Berhane and his colleagues Dr. Solomon Ghebreghiorghis and their team members, known as “*Our Voice – Eritrea*” were the pioneers in advocating the need for Eritreans in the Diaspora to speak with one voice to contribute to the democratization of Eritrea. GI has benefited from the various documents “*Our Voice – Eritrea*” has produced and were strong

advocates of the need for the unity of Diaspora Eritreans to be effective in bringing about democratic changes in Eritrea. The recent initiative Ato Berhane took to bring unity among the various political entities was a remarkable achievement. His passing at such an early age before seeing the fruits of his hard work makes his passing more painful to all justice-seeking Eritreans.

May the Lord receive him in his Kingdom and may his family members be consoled by the legacy he has left fighting for justice in his homeland.

GI Task Force Leadership Team
