

## **Eritrean Sinit Study Group (ESSG) Conference Invitation**

*June 2019*

*Dear Eritrean Compatriots:*

The Eritrean Sinit Study Group (ESSG) is happy to announce the completion of its Eritrean Democratic Transition Studies and would like to invite all Eritreans and friends of Eritrea to the **First Sinit International Conference, July 5-6, Bay Area, California.**

ESSG is a “think tank” group of Eritrean intellectuals and professionals who have been conducting studies to chart a way of mobilizing a harmonized and united front of Eritreans for an effective struggle against the dictatorial regime in Eritrea and to transition Eritrea to democracy. The “Denver Manifesto,” a preliminary work of the group was presented in the summer of 2018 at the “Sinit 2018 Denver Festival” in Denver, Colorado, USA. As the basic principles of our struggle against the dictatorial regime in Eritrea, the Denver Manifesto outlined 35 Articles that address the fundamental rights of citizens, and a three-stage transitional roadmap for bringing democratic change in Eritrea.

In keeping with the Denver Manifesto mandate, the ESSG is conducting an international conference to present and discuss its findings and implement the recommendations of the studies. The ESSG study findings will include a three-part report addressing the regime’s violations of the rights and dignity of Eritreans, the components of the roadmap for creating united front of justice-loving Eritreans, and addressing transitional constitution for Eritrea.

We respectfully request all Eritreans to come and participate in this public forum and be a part of charting the future of Eritrea.
